**HYBRID  
SOUNDS**  
LOCATION SOUND RECORDING

## Experience

---

I have worked in sound since he was 17. Starting first as a live sound engineer, then music production and then into Film and TV location recording where I fell in love with capturing performances and getting great recordings in tough environments.

Since then I have worked on countless TVC's. Documentary titles like AACTA Award winning Hipsters, Amazon's AFL series Making Their Mark and the Apple Series home which I was nominated for an Emmy. TV titles such as, Puberty Blues, Underbelly, A Place To Call Home, Doctor Doctor. Films, Rams, The Dry 2, Killing Ground for which I was nominated for Best Sound in a Feature Film at the 2017 AACTA Awards. I am also an avid musician and composer.

## Awards

Emmy Award Nomination 2023 - Best Sound Mixing for Documentary Series - Home
